## SIX KILLED OUTRIGHT

Several Others Badly Injured at Wheeling.

### A BIG BUILDING COLLAPSES.

The Falling Wall Completely Demolishes Another Building and Badly Damages Several Others—The Debris Takes Fire and a Destructive Conflagration Follows. Three Victims Still in the Ruins.

WHEELING, April 10.—The south wall of the 4-story brick block of T. T. Hutchinson & Company, on the corner of Main street and the alley south of Twelfth, collapsed yesterday morning. Next north of it, W. H. Chapman & Son, were just finishing a 5-story brick block to be used as a paint, glass and supply store, and they already had stored in about \$14,000 worth of stock and were doing business there. Hutchinson & Company deal in hardware, saddlery and wagonmakers' supplies, and the building was packed full of goods. The wall on the alley first fell out, pulling with it the party wall between Hutchinson and Chapman's.

People, who were near, say that the cracking of the timbers was like the rattle of musketry, and that in a few seconds everything was rendered invisible by a huge cloud of dust. The crash of the falling buildings was terrific and soon drew thousands to the scene. The horror of the accident was increased by a fire which broke out immediately, as there were large quantities of oil, turpentine and the like in Chapman & Son's store.

As soon as people about the place became certain of their escape, it was found that there were buried in the Hutchinson building's ruins four employees, as follows: Robert Wincher, Eugene Birch, P. J. Horan and M. J. Ford.

Charles Haller, the bookkeeper, and Adam Blum, the junior partner, were pinioned up against the rear wall and were released by prying the iron bars off the windows. They were unhurt.

Mr. Hutchinson was in the second story and was badly injured, but was rescued alive, and hopes are entertained that he may recover.

Ford was reached after hard work by a large force of men and found alive and conscious. He was removed to a hospital. He may get well.

The other three employees are still in the ruins and doubtless dead.

When the collapse came, Ford was selling a bill of goods to Benjamin F. Pritchard, a wagon manufacturer of Buchanan, W. Va. Pritchard's dead body was found lying across Ford's legs. He was literally crushed to death.

Shortly before the accident Very Rev. Father F. E. Par, vicar general of the Catholic diocese of Wheeling, was seen to enter the alley and he was believed to be killed, and the belief was sadly confirmed at 6:30 p. m., by the recovery of his body. He was 72 years old, a chaplain of Mount Dechant academy and had been twice administrator of the diocese, first when Bishop Wheelan died in 1874 and second in 1894, when Bishop Kane was made an archbishop and removed to St. Louis.

A Western Union telegraph messenger boy, Harry Cowl, aged 14, is also known to have been in the alley and his body has not been discovered. No others are known to be lost.

The falling brick and timbers knocked a hole 30 feet long in the 3-story brick building across the alley, occupied by S. M. Rice & Company, wholesale milliners, and the smoke and water ruined that firm's valuable stock. The smoke also permeated to the adjoining house across, occupied by Speyer Brothers, wholesale milliners, and their loss will be heavy.

Water caused serious damage to Creer & Laing's hardware store and Ott Brothers & Company, also hardware dealers.

The cellars were flooded for a block, 10 streams playing all day, and averaging 1,000 gallons a minute, and it was midnight before the fire was extinguished.

The loss will probably aggregate \$150,000, but owing to the fact that the condition of the stock in adjoining stores can not yet be ascertained, the loss can only be estimated. T. T. Hutchinson & Company's loss will reach \$50,000.

Great indignation is expressed, because at the time the old Melodeon hall property was remodelled and a story added in 1891 by Mr. Hutchinson, the walls were condemned, but he persisted in using them, and owing to the lack of adequate laws, could not be prevented.

### HERO OF TWO WARS.

Death of General T. A. Harris at His Home Near Louisville.

LOUISVILLE, April 10.—General T. A. Harris died at 11 o'clock yesterday at his home, Locust Lodge, above Pewee valley. He had been critically ill for some time and the end was expected.

When a boy but 16 years of age he distinguished himself against the Mormons in Missouri. General Harris was a hero of two wars, having commanded a regiment from Missouri in the Mexican war, and when the civil war broke out he was given command of another regiment, whose sympathies were with the south. He was a West Point graduate, and attended that institution with General Grant and General Buckner.

Just after the war he was editor of the New Orleans Times-Democrat, and did much to build up the paper. He was assistant secretary of state in Kentucky during the administration of Governor Blackburn.

### WON'T GO TO GUATEMALA.

Abandonment of the Indianapolis Colony Advised.

INDIANAPOLIS, April 10.—Recent articles printed in newspapers telling of profitable fields in Guatemala for American emigrants induced the formation of an Indianapolis colony, whose purpose it was to emigrate to that country. This colony was to consist of 150 men.

Among its members was J. Conrad Bray of 125 Columbia avenue, who wrote to P. M. B. Young, the American minister at Guatemala, asking for information regarding the flattering inducements that have been offered emigrants. Minister Bray has just received an answer to his letter.

Minister Young writes that the interviews which have been so widely published as having come from the Guatemalan minister are absolutely false. The minister says that that country holds but poor inducements to emigrants. He says laborers receive but \$1 a day. He discourages any attempt at emigration on the part of Americans. The proposed colony will be abandoned upon the advice of Minister Young.

### Bohemian Woman Murdered.

CROWN POINT, Ind., April 10.—Near Cedar lake late Monday night, Mrs. Barney Elwager, a Bohemian woman, aged 35 years, was murdered. Her body was found yesterday morning by neighbors. The family have recently had trouble about the division of property, and it is probably this murder is the result.

### Rock Wrecks a Locomotive.

ST. JOHNSBURY, Vt., April 10.—The southbound passenger train on the Passumpsic division of the Boston and Maine railroad collided with a large boulder on the track near Smith's Mills late last night. The locomotive overturned and Engineer S. J. Rooney and Fireman Lewis Emerson were fatally scalded. It is believed that the rock was loosened by the heavy storms and rolled down on to the track. None of the passengers were seriously injured.

### Her Relatives May Be Surprised.

SAN FRANCISCO, April 10.—Miss Blanche C. Lamont of Butte, Mont., who has been visiting relatives here for several months, has not been seen since last Wednesday. ## SKIRMISHING GOES ON

Several More Small Battles Take Place in Cuba.

### REBELS COMPLETELY ROUTED.

This Is According to the Government Report Direct From Havana—A Conspiracy Broken Up by the Prompt Actions of the Governor—Marshal de Campos Will Land on the North Side of Cuba.

HAVANA, April 10.—The troops continue pursuing the rebels and a number of additional skirmishes have taken place. Lieutenant Padilla came upon a band of 50 rebels near San Miguel Bagues, in the province of Puerto Principe. Panchiv Varena was killed, and the second in command, Felipe Alvarez, was captured. A woman living in the immediate vicinity was killed by a stray shot.

In the neighborhood of Monteverde, province of Santiago de Cuba, Lieutenant Carrido overtook a number of rebels belonging to the forces of General Maceo. The government troops captured three rebels, among whom was one man who belonged to the expedition headed by General Maceo, who recently landed on the coast of Cuba. The rebels were obliged to seek refuge in the mountains, pursued by the troops. In this skirmish the government soldiers sustained no loss.

Twelve persons, who were arrested on Sunday last, have been released, it having been shown beyond any doubt that they had not been engaged in any plot against the government.

"Guillermo," an important negro leader of the rebels, died from a sickness not defined, yesterday, at Mucara, Santiago de Cuba.

Brigadier Moncada, otherwise and more generally known as "Guillermo," was the leader of the rebels of Guanamao, who recently defeated a detachment of the Spanish troops, commanded by General Lachambre.

"Guillermo" was a negro of the blackest complexion, a carpenter by trade, and with the stature of a hercules. In the long Cuban revolution he displayed great courage, and when General Martinez Campos brought about the pacification of Cuba "Guillermo" was appointed inspector of agriculture at Santiago de Cuba.

Private news received in this city is to the effect that the civil and municipal authorities of Puerto Principe were recently informed of the existence of a conspiracy to raise a body of insurgents who were to take the field as soon as Field Marshal Martinez de Campos should have arrived in Cuba.

The governor at once gave orders for the arrest of the conspirators, the names of whom had been betrayed by the informer. Among those taken into custody were the Marquis of Santalucia and four other equally well known gentlemen, all of whom are now in prison. Varono Agnero was also denounced as being implicated in the conspiracy, but news of the discovery of the plot coming to his ears he disappeared and his whereabouts has not been yet learned.

According to the information of the conspirators Marshal de Campos intends to land at Guantalamo, a well known sugar port on the south side of Cuba, a short distance to the eastward of San Diego.

### COAL OPERATORS' ULTIMATUM.

Pittsburg Miners Must Work For Sixty Cents or the Mines Will Shut Down.

PITTSBURG, April 10.—The Pittsburg Railroad Coal Operators' Association have issued another statement to the miners. In effect it says that the Ohio operators not only have the differential of 9 cents a ton, but have an advantage in freight rates of 2 1-2 cents per ton.

They say that something radical must be done if the Pittsburg district wishes to retain its lake trade. They make a final proposition to the miners that they will stand the discrimination in shipping rates, but the men must agree to work for the 60-cent rate prevailing in Ohio, or the mines will have to shut down this summer.

### Indians Killing Each Other.

PERRY, O. T., April 10.—Jenison McClure, a wealthy Chickasaw Indian, quarreled with Joe Paul, his nephew, and an Indian judge last night over the widow of Paul's father, and killed him. WILKESBARRE, Pa., April 10.—An explosion of gas occurred at Nanticoke in No. 2 slope, operated by the Susquehanna Coal company, at noon yesterday. It was caused by a naked lamp carried by one of the miners. A number of men were at work in the slope at the time, six of whom were badly, though not fatally burned.

### TERMS OF PEACE.

Settlement Between Mexico and Guatemala Contains Seven Clauses.

CITY OF MEXICO, April 10.—The settlement between Mexico and Guatemala contains seven clauses.

First—Guatemala declares that that government never had the intention to offend Mexico, and believed that she only exercised her rights over the territory west of the Laontun river, though recognizing her error.

Second—Notwithstanding this, and for the sake of harmony between the two countries and out of a sense of equity, Guatemala promises to make good the damages caused by her agents, and the amount of said indemnity to be settled by arbitration.

Third—Mexico desists from her claims of indemnity for war expenses, also for her demand of Nov. 30, which demand was for the removal of Miles Rock from the Guatemalan commission of boundary engineers, which Guatemala had already done.

Fourth—Guatemala consents that Mexico may immediately occupy the territory west of Chixoy and Usamacinta rivers, the territory assigned to Mexico by the treaty of 1882, and which Guatemala claimed belonged to Mexico only after full delimitation is finished, whilst Mexico concedes that the real meaning of the treaty of 1882 is the line as quoted by Guatemala.

Fifth—Both countries accept the average lines drawn from the Usamacinta river, and in case of dispute, the question is to be submitted to arbitration of engineers.

Sixth—The geographical position of the Chixoy and Usamacinta rivers is to be fixed from intersection of first parallel to its point of confluence with the Passion river, and the boundary stones are to be placed according to the agreement of September, 1883.

Seventh—This agreement is to be submitted to the approval of the legislative bodies of both countries for approval; but to be previously published by both countries if so desired, and the exchange of the ratification must take place before the last day of May.

Two copies were signed by Foreign Minister Mariscal and Guatemalan Envoy Deleon.

### National Union of Wire Drawers.

NEW CASTLE, Pa., April 10.—A meeting, which has been in session for days, resulted in the formation of a national union of wire drawers. Representatives were present from Cleveland, Cincinnati, Philadelphia, Findlay, Salem, O., and Anderson, Ind., and New Jersey. No information has been given out concerning the officers of the union, but it is said that it will be one of the strongest labor organizations in the country, and its formation concerns thousands of workmen. Charles Balder of Cincinnati is the principal mover for the organization.

### Newfoundland Stipulates.

OTTAWA, Ont., April 10.—One of the stipulations which Newfoundland delegates will insist on, should union take place there, will be steamers between the nearest Canadian point and the west shore of the island, there to connect with a railway now under construction across the island. In this connection, Sandford Fleming, the well known engineer says the later Ocean railway will be utilized as a link in the great passenger and mail route between America and Europe. By this means the Atlantic, from land to land, could be crossed in three days.

### Pittsburg Grand Jury Busy.

PITTSBURG, April 10.—The grand jury was reconvened yesterday and it returned true bills against the Tarentum glass house strikers, six in number, who murdered Philip Kearney Sutton of Dunkirk, Ind., on March 23. Sutton was working in the factory as a non-union man. The murderers are all members of the Bee gang in Tarentum. Five other members of the gang were also indicted for a robbery committed on the same night. True bills were also returned against the Denniston sisters, shoplifters, who are known all over the country.

### Oil Advanced.

TOLEDO, April 10.—The price of Ohio and Indiana oil has been given another boost. Yesterday North Lima advanced from 67 1-2 cents per barrel to 72 1-2 cents; South Lima from 62 1-2 to 67 1-2 cents and Indiana from 60 to 65 cents. This is a straight advance of 5 cents per barrel all around. About a month ago there was a similar advance of 5 cents per barrel on Ohio and Indiana oil. This makes a rise of 10 cents per barrel within a period of five weeks.

### Murdered by His Brother.

OWENSBORO, Ky., April 10.—Will Payne was murdered yesterday by his brother, Loch Payne, on the farm of the latter, near Knottsville. ## OUR NATION THANKED

Venezuela Grateful For Sympathy and Support.

### BRITISH VENEZUELAN QUESTION.

President Crespi of Venezuela Sends a Special Message to the Congress of Venezuela and That Body Immediately Adopts a Resolution That Has Just Reached Washington—That Country Feels Safe.

WASHINGTON, April 10.—President Crespo of Venezuela has sent a special message to the congress of Venezuela concerning the attitude of the United States on the British-Venezuela question. Immediately following the receipt of the president's message the congress passed resolutions amid great enthusiasm, heartily thanking the United States for its sympathy and support.

Senor Andrada, the Venezuelan minister here, yesterday received copies of the message and resolutions. In a day or two he will have enrolled copies delivered to the state department and probably to the president. The people are also getting up a monster popular petition breathing the warmest appreciation for the support of the great republic of the north. President Crespo's message says:

"The high powers of the United States have just given in the pending question between Venezuela and England a signal proof of the extent to which the principal of human justice prevails among the great people. The chief magistrate of that powerful republic being persuaded of the great peril, which is involved for American interests through a prolongation of a conflict of such a grievous nature, expressed in his message to congress the strong wish of inducing Great Britain to put an end to the dispute by arbitration, a recourse long ago earnestly proposed by Venezuela.

In the house of representatives there was introduced as a consequence of the president's salutary words a resolution in which has been inserted in the yellow book of Venezuela, and in the terms of which is disclosed the noblest interest in settling the unfortunate controversy closed in conformity with justice and reason. The resolution earnestly recommends to the two contending parties the adoption of the course indicated by the message of the president of the United States in order to peaceably settle the dispute which, as has been said, is the same course Venezuela has stood ready to pursue.

"The legislative act referred to was approved by both chambers and his excellency, President Cleveland, affixed the signature and seal thereto on the 21st of February. Such tokens of the spirit of justice with which the transcendent question of Guiana boundaries is studied and considered by the magistrate and legislature of the great republic of the north requires from Venezuela a significant act of special gratitude, which only you can sanction, so as to express the wish of the whole people of Venezuela. Certain I feel that this idea will have the most enthusiastic acceptance in the hearts of our worthy legislators."

The congress in joint assembly, as occurs when important subjects are under consideration, at once acted upon President Crespo's suggestion, and the resolutions express the deep appreciation of Venezuela for the co-operation of the United States in the former contention with England.

Word reached the legation here that Venezuela feels so secure in her rights that she is pushing forward public improvements in the disputed territory. This is shown by a report from the commissary general, stating that he has finished a church which is to be the nucleus of a settlement in the Amacuro region. This is a sort of Venezuelan outpost, where they are taking a stand to resist further encroachments of Great Britain.

### GOVERNOR MARVIL'S DEATH.

It Makes No Change in the Senatorial Deadlock in Delaware.

DOVER, Del., April 10.—Contrary to general expectation there was no change when the 105th ballot was taken yesterday for United States senator, and the deadlock seems no nearer a solution than previous to the death of Governor Marvil.

Chancellor Walcott administered the oath to Speaker of the Senate Watson, as governor. A suitable resolution was then adopted on the death of Governor Marvil.

As a mark of respect the members of the general assembly will attend the funeral in a body and no business be transacted in the meantime, except the daily balloting for United States senator.

Senator Records, Democrat, was elected speaker pro tem of the senate.

### Naval Official Dead.

ANNAPOLIS, April 10.—Pay Director James Fulton, in charge of the pay office at the naval academy, died here Tuesday at an early hour. A widow survives him.

## Warmer weather in northwest portion; west winds.

PRESIDENT CLEVELAND'S enemies took great delight in circulating the contemptible story started by that fellow Lansing, who is said to be a preacher. Papers who have been opposing the President for years spread it broadcast, but they don't seem so anxious to publish Lansing's retraction and apology. They belong to Lansing's class.

The Rev. J. J. Lansing, who went out of his way a few days ago to malign President Cleveland by charging him with drunkenness, now comes to the front with a retraction of what he said and tries to apologize for his contemptible slurs. It looks very much like Lansing took this method to gain a little notoriety, but in gaining the notoriety he has gained the contempt of all fair-minded people irrespective of party. A minister disgraces his calling when he spends his time circulating such stories.

"The Democrats of Kentucky are seriously, and for the time being hopelessly, divided upon the money question," says the Cincinnati Tribune. The Tribune and other Republican papers would like very much to see the money question an issue in the approaching State contest, but the Democrats are certainly wise enough to let it alone until the proper time to consider it. But when it comes to this money question, the Tribune knows, or ought to know, that the Republicans are just as hopelessly divided as the Democrats.

## OUR HEROES.

BY MISS LIZZIE J. MAITBY.

Over our Nation's heroes the same flag floats above,  
And throughout the Union shall be harmony and love.  
The book of "National Remembrance" preserves each name,  
And every Decoration Day proudly renews their fame.  
As the time for this National memorial draws near,  
In every town and village their names become more dear.  
How serenely they sleep after a toilsome day  
"Under the roses the blue—under the lilacs, the gray."

Those old time heroes whose remembrance we revere  
Were loyal to the public good—ever to them most dear.  
In their own loved Virginia rest Madison and Monroe,  
Where the bright waves of the Chesapeake roll below;  
In the groves of the Hermitage, the birds warble their pean  
Above noble Andrew Jackson—the lion-hearted Tennessean;  
While above Carolina's orator—John C. Calhoun, so gifted,  
The plumed palmetto nods—the blue sky is rifted.

"By the flow of the infant river,"  
Where the leaves in the breezes quiver  
Missouri's great statesman, Thomas Benton, is taking  
The long sleep, the sleep that knows no waking.  
I wish I might gather the honor due  
These heroes of ours so noble and true:  
Whose voices never silent against evil and wrong,  
But for what they deemed right ever earnest and strong.

This dark pathway let none fear to tread  
The beaten path of the glorious dead.  
Where the Susquehanna, river of romance, is flowing  
As it laps its banks to the ocean going,  
James Buchanan, the great diplomatist, is sleeping  
Where the waves forever advancing and retreating,  
Lull with their murmur low and sweet,  
The sigh of winds—the tread of feet.

How heroic and gifted were Webster and Clay,  
The two greatest orators of their day,  
How all along the line these words are sent,  
"I would rather be right than President."  
While Webster's words will be forgotten never,  
"Independence now and independence forever."  
When remembering these men of surpassing skill  
To the heart of every American, it sends a thrill.

And another of Virginia's master-spirits grand,  
As brilliant and illustrious as any in the land,  
Was Patrick Henry! How they listened with bated breath  
To the bold cry of "Give me liberty or give me death."  
He left a legacy to the world more valuable than gold—  
The influence of such a life cannot in words be told:  
"For the song that's sweetest is the song that's never sung,  
That lies at the heart of the singer too grand for mortal tongue."

In peace or in war—on land or sea—  
These men were heroes and ever will be.  
Many new recruits answer the Great Captains' call.  
While myriads of names echo in garden and hall.  
Generals Grant, Sherman, Jackson and Lee  
Music we'll breathe flowers wreath for thee,  
And as the gray and blue in the eastern sky is found  
With equal love we'll scatter flowers over each lowly mound.

The innumerable host! in heaven is garnered each name;  
While on the Nation's corner stone in memorial they remain.  
May a triumphant history upon our banner be  
A record of advancement, of peace and liberty.  
May it ever float above us when our life-work is complete,  
From the army of the right—may we never dare retreat.  
And when the glorious morning dawns, just at the break of day,  
We'll meet this Kingly Band, who wore the blue and the gray.

Washington, Ky.

## Klotschiessen—What Is It?

Under the title of "A Game We Might Play," the Marquis of Lorne in Good Words puts in a plea for an open air winter pastime in the low countries of northern Europe which has for centuries enjoyed a sort of national reputation. It is a rough sort of golf, played without clubs or holes, is inexpensive and can be played by two single opponents or with two on a side. The article contains a very picturesque description of a match between two villages in Friesland, at which the writer was present, and conveys a striking impression of the popularity of the game and of the spirited emulation which it awakens. It is pointed out that in England there are many districts, especially in the east of the island, which are peculiarly well adapted to the game, there being in these parts much flat land where winter makes the ground hard. Wherever these conditions exist, there, we are told, the "klotschiessen," or "clotshot" game can be played with advantage.—London News.

## Dabster Misunderstood.

Figg—What kind of a writer is Dabster? Is he possessed of descriptive powers?

Fogg—Unfortunately, yes.

Figg—Unfortunately?

Fogg—Yes. In his recent sketch of a western girl he spoke of her commercial traveler manner and her generous understanding. The Chicago people allowed that the "commercial traveler manner" was a compliment of which anybody except in the effete east might well be proud, but they suspected that the other characterization was a cheap fling at the size of women's shoes, and after that his writings were a drug in the western market.—Boston Transcript.

Mr. WILL POGUE, who has been ill with rheumatism several weeks, was able to get down town Tuesday.

## KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

MRS. MARY CAROLINE COX.

One of Maysville's Christian Women  
Answers the Summons of the  
Death Angel.

Mrs. Mary Caroline Cox, relict of the late George Cox, died yesterday at 10:30 a. m. at her residence on West Front street. A little over a week ago, Mrs. Cox was stricken with pneumonia, and, enfeebled by old age, she fell an easy victim to the disease. Her condition had been critical since Sunday.

Deceased was a native of Baltimore and was born April 24, 1815. Her maiden name was Davis. She was married twice, her first husband being Jacob R. D'mmitt who went to California during the excitement over the discovery of gold in 1849, and who lost his life in the far-off West. On November 12, 1854, she was united in marriage to the late George Cox, who passed to his reward in 1881. She leaves no children. Mrs. Cox had been a member of the Baptist Church sixty years, and was a most liberal contributor to the building of the present handsome house of worship on Market street. Her life was full of deeds of kindness and her heart was ever open to the appeals of the needy and suffering. In her death, Maysville loses one of her noble Christian women.

The funeral will occur to-morrow morning at 10 o'clock at the residence, with services by Rev. Robert G. Patrick. Interment in the Maysville Cemetery.

Base Ball.

The opening of the championship season of professional base ball at the Cincinnati Park on April 18th promises to attract the largest crowd ever on the grounds. The Maysville "fans" will no doubt be on hand to see the opening game. The BULLETIN acknowledges the receipt of a complimentary.

KENTUCKY CROPS.

The Outlook for the Farmers is Brightening, and a Better Feeling Prevails.

In his initial report this spring the State Commissioner of Agriculture says: "The outlook for the farmer at the beginning of last winter, was not very encouraging—the long drought had, in many places, ruined his prospect for a crop, and the continued dry weather made it almost impossible until very late to sow his small grain for another year, consequently the plant was very small and tender to encounter a long hard winter. They were most all overstocked with all kinds of farm stock, and it was a questionable matter with them, on account of the low price, as to whether they would buy feed for them or allow them to rough it as best they could—on account of which a great many correspondents write that there have been some horses and cattle and a great many sheep died.

"But the prospects for all kinds of stock and farm products are brightening, and the farmers are feeling better. The crop of small grain has come through the winter much better than was expected; the demand has increased, prices have advanced and the indications are that the price will be better this harvest than last. Cattle, hogs and sheep are all in demand, and at remunerative prices.

"As to the present condition of wheat, nearly all correspondents write the plant is small but looks thrifty, and is beginning to show up pretty well. There is some difference of opinion as to whether the snow was advantageous to the wheat—usually wheat will make some growth under snow, but the weather was so intensely cold that the ground froze under the snow, which stopped all growth and caused some wheat to perish; but it is reasonable to suppose that a larger portion would have died had it not been covered by snow."

A LITTLE THING.

Such a little thing hides the sun, sweetheart,  
Such a little thing hides the sun,  
A sudden cloud or a wall of mist,  
And we moan "The day is done!"  
Such a little thing hides the sun, sweetheart,  
The top of waving tree,  
A summer shower, of the sunshine born,  
A mist that dips in the sea.

Such a little thing hides the sun, sweetheart,  
But isn't it joy to know  
That the sun still shines behind the clouds;  
That the soft, warm winds will blow  
Till the wall of mist shall be blown aside  
And the shadows flee away,  
And the sun behind the western hills  
Gives pledge of a brighter day!

## CONDITION OF CROPS.

The Weather Bureau's Review For the Week Ending April 8.

WASHINGTON, April 10.—The weather bureau in its weekly review of weather crop conditions for the week ended April 8, says:

Upon the whole the week has been very favorable. Corn planting has progressed rapidly, under favorable conditions in the southern states, where a large proportion of the crop is in the ground and some has come up. Preparations for corn planting have been made in the middle Atlantic states, and planting has begun in Missouri and Kansas.

Winter wheat has greatly improved during the week in Illinois and is in good condition in Michigan, Missouri and eastern Kansas. But less favorable reports are received from Minnesota and Wisconsin, where it is reported as badly winter killed; in Nebraska the crop has suffered from drouth and high winds.

Spring wheat seeding is well advanced in Minnesota and South Dakota, and while some seeding has been done in North Dakota, the work has been retarded by dry weather.

Cotton planting has been pushed forward in Louisiana, and has continued under favorable weather conditions in Texas, a little planted in Arkansas and some in the southern portions of Georgia and Mississippi; planting will begin in Alabama in a few days.

Oat seeding is progressing rapidly in Ohio, and nearly the entire acreage of this crop has been sown in Illinois, Indiana, Iowa and Missouri; seeding has begun in West Virginia, and is well advanced in Maryland, New Jersey, Minnesota and South Dakota.

The general outlook for fruit is very favorable, no serious damage having yet been done by frost.

Rain is badly needed in Oklahoma, and more would be beneficial in Missouri, Ohio, Minnesota and North Dakota.

## Confessed Embezzler Arrested.

CHICAGO, April 10.—Patrick C. Crane, teller of the money order division of the Chicago postoffice, was arrested yesterday afternoon charged with and confessing to the embezzlement of \$1,416. He offered to restore the money after being arrested.

## Phenomenal Rainfall.

RALEIGH, April 10.—Heavy damages to bridges by floods continue. The rainfall was phenomenal, particularly at Chapel Hill, where almost five inches fell in 12 hours. ## Intends to Attack the Italians.

His troops, who are armed with French rifles, are being drilled by a Frenchman. It is probable that the forces of the Mahdi will attack the Italians simultaneously with the Abyssinians.

## Cincinnati Tobacco Market.

Furnished by the Cincinnati Leaf Tobacco War-house Company:

The receipts and offerings have been quite liberal, and the sales have been quite satisfactory to most of the sellers. The market has been uniform in prices, causing less reactions than is usual on a fluctuating market. Some very good tobacco has been offered, and while they look large in proportion to most of the offerings, we think they should go even higher, taking into consideration the quality in the crop, and many predict a greater scarcity than was anticipated a month ago. The good red fillers have advanced and closed very firm, and even seedlings are steady at full quotations, while the low grades, green and non-descript, are still low, and we see no future prospect for any particular improvement on these grades, as the quantity is in excess of the demand. There have been liberal offerings of old stock, and when there is any character showing, we see they have done better, and the holders are letting them go, but those which are funk are in bad repute and sell very low. The season is advancing, and we expect warm weather in the near future, and we wish to caution those holding the new crop in the market to watch the same carefully, as it will go into a sweat rapidly and will soon damage. The weather being favorable for farmers to commence spring work the receipts will probably be light, and it is a good opportunity for those having their tobacco ready and on the market to sell while the offerings are light. We give some of the sales made the past week: At the Globe House, E. P. Pogue, 1 hoghead new at \$14. Mastin & Reeves, 2 hogheads new at \$10.50 and \$15. L. M. Marshall, 4 hogheads old Mason at \$10.75, \$11.50, \$12 and \$14.25, average \$12.12. W. N. Marshall, one hoghead old at \$16. At the Miami House, J. T. Prather sold 6 hogheads new at \$7, \$7.95, \$12.75, \$13.75, \$13.75 and \$14.50. J. W. Osborne, 3 hogheads new at \$11.50, \$14.40 and \$11.75. J. T. Prather, 5 hogheads new at \$14.75, \$14.75, \$14.50 and \$11.75. Walter Sharp, Sharpsburg, 65 hogheads new at from \$3 to \$17.25.

## Brown's Iron Bitters

In a unsolicited letter (June 29, 1894.) she writes: "About 9 or 10 years ago I was broken down in health and suffered from extreme nervousness, and severe neuralgic pains afflicted different parts of my body—sometimes the dreadful pain would be in my eyes and head, sometimes in my hand and often in my shoulders and neck. I took many remedies, but found none like Brown's Iron Bitters. I have used a few bottles every year since. I often praise it to others."

## The Nonprofessional Profile Head.

"I don't know how many times I have seen people—I don't mean artists, but all sorts of people, including children—draw profile heads. It is common enough for anybody to draw them on a slate, a scrap of paper, anywhere," said Mr. Billtops, "but I don't remember ever to have seen any of them draw a right handed profile—I mean one facing to the right. I suppose there is some very simple reason for this, but I am acquainted only with the fact."—New York Sun.
